#### CURRICULUM

In the framework of DAAD's program *“Academic Exchange and Scientific Cooperation for Security, Collaboration and Civic Development in Europe”* the Center for Global Politics at Freie Universität Berlin is holding its third workshop on curricular development and current political developments in the region in Lviv. Within ten days young researchers will design a future-oriented IR curriculum that includes recent developments in IR and Political Science. Participants will also get into and debate current trends in global politics, with a focus on (moderating) conflicts. Not least, the workshop aims at supporting Ukraine in terms of civic development through network building, respectively by connecting Ukrainian and German researchers as well as researchers from the region who desire to put forward new ideas. We therefore invite PhD students and PostDocs to exchange their views on various topics – especially touching upon Europe, the European Union and challenges that come along with recent political developments.
